

SPRINKLER ANNUNCIATOR PANEL

JOCKEY / TERRACE PUMP PANEL

FIRE PUMP CONTROL PANEL

www.asesindia.com

## Sprinkler Annunciation Panel

### Features :

- Fully Microprocessor based Digital Panel
- 2 to 200 Zone expandable facility
- Zone wise window facility
- Fully confirm to IS 2189
- 16 x 2 character dot matrix LCD optional
- Reset, Cancel & Lamp test facility
- Compatible with all types of flow switches
- Extra potential free contact facility.

## Terrace / Jockey Pump Control Panel

### Features :

- Pump Starting with auto / Manual mode
- DOL & Star / Delta starter facility
- Indication for pump start, pump off & tripping
- Suitable for 5 HP to 10 HP Motors
- Lamps for phase indication, voltmeter for phase voltage
- As per IS: 8623
- Wall mounting & lockable door facility
- Panel assembled with standard switch gears
- Easy installation, Easy operation & Easy Maintenance
- Useful for small fire fighting

### TECHNICAL SPECIFICATION

Model	Sprinkler Annunciation Panel	Terrace / Jockey Pump Control Panel
Power Input	220 V A.C. / 24 V DC	3 phase, 415 V AC
Housing	16 SWG CRCA sheet with powder coating	16 SWG CRCA sheet with power coating
Power Consumption	As per required Zone (5 watt per zone app.)	As per load
Weight	As per required Zone (5 watt per zone app.)	As per required feature
Signal from flow switch	Alarm on NC	-----
Hooter output	24 V DC	-----
Operational current	-----	63 AMP

# Fire Pump Control Panel

Our company is engaged in designing & manufacturing of motor control centres that have the capacity to fed larger loads. Our control Panels comprise

## Features :

- AC variable frequency drives
- PLC / I / O Chassis
- Solid state motor controllers
- Lighting panels
- Analog or Digital metering
- Feeder circuit breakers
- Feeder fusible disconnects
- Thermal overload relay with built in single phasing preventor

## TECHNICAL SPECIFICATION

Operational Current	32 A to 1600 A (As per motor rating)
Ambient temperature	45 degree
With stand capacity	16 KA to 100KA
Degree of Protection	AS per IS standards (IP-54)
Types of starters Includes	Automatic star delta, direct on line, soft starters.

## COMPANY PROFILE

We Agni Suraksha a leading manufacturer of Fire Alarm & Fire Pump Control Panels. Our range of control panels are used in various Industrial, Commercial, Hydro Power Projects and other establishment. With a sound infrastructure we manufacture wide range of control panels that are used by several institutions.

## ABOUT US

Located in Delhi & Sahibabad, U.P., we ASES Security (P) Ltd have vast Industry experience in the field of control panels. Our comprehensive range includes fire alarm control panel, sprinkler annunciator panel, Motor control panel, fire pump control panel, DG synchronizing panels etc.

Our sustaining effort in delivering quality control panels establish us as a trust worthy supplier amongst our client. The specially of our production is to fabricate customized products as per requirement of our clients.

## QUALITY

Being an ISO: 9001 certified company, we believe in furnishing total customer satisfaction through our unmatched service & quality products. Therefore we follow quality control policies and the production, assembling & testing of control panel as per IS specification (IS: 8623). Our control panels incorporate proven switchgear components like switches, fuses, breakers, contactors, relays of siemens, L & T, MG, GE etc.

## WHY US

- > Compliance with IS standards
- > Profound manufacturing Unit
- > Customized production facility
- > Most competitive price
- > Timely delivery of consignments

## CONTACT US

Design and specification are subject to change without notice owing to continuous product up-gradation.

Technical specification are subject to production tolerance. We cannot be held responsible for printing errors, should they occur.
